Benefits of Participation

FARM TO SCHOOL ACTION PLANNING

During the retreat, participants develop a comprehensive school-wide Farm to School action plan that includes curriculum, local procurement, utilizing outdoor learning spaces, and cultivating family and community connections.

COACHING SUPPORT

School teams are paired with an experienced coach from their state's Farm to School Network. You'll have communication and meetings with this coach throughout the school year to assist you in implementing and adapting your action plan to meet the changing needs of your school.

NETWORKING WITH PEERS

Individuals and teams have time to share innovations, join in dialogue, and share food and fun with other schools from across the Northeast states.

TEACHER & NUTRITION STAFF

PROFESSIONAL DEVELOPMENT

All team members receive certification of participation for the retreat. School nutrition staff receive continuing education/training hours for their time. Teachers may opt to receive graduate continuing education credits through Castleton University by participating in a fall curriculum retreat.
